

## Recombinant Plasmodium sp. Aldolase Protein

**Cat. No.** PFK9-1080p    **Lot. No.** (See product label)

### SPECIFICATION

|                            |                                                                                                         |
|----------------------------|---------------------------------------------------------------------------------------------------------|
| <b>Product Overview</b>    | This is Recombinant Plasmodium sp. Aldolase Antigen which is expressed in E. coli and the mw. is 66 kDa |
| <b>Species</b>             | Plasmodium sp.                                                                                          |
| <b>Source</b>              | E.coli                                                                                                  |
| <b>Antigen Description</b> | Fine Specificity: 368 a.a                                                                               |
| <b>Molecular Mass</b>      | 66 kDa                                                                                                  |
| <b>Purity</b>              | SDS-PAGE~90%                                                                                            |
| <b>Usage</b>               | ELISA                                                                                                   |
| <b>Storage</b>             | Aliquot & freeze ( $\leq -20$ centigrade)                                                               |
| <b>Storage Buffer</b>      | 10 mM Tris, pH8.0 + 10 mM NaCl + 0.02% Proclin-300                                                      |
