

## Recombinant Zika Virus Envelope Protein

**Cat. No.** ZIKV-1091v    **Lot. No.** (See product label)

### SPECIFICATION

|                            |                                                                                                                     |
|----------------------------|---------------------------------------------------------------------------------------------------------------------|
| <b>Product Overview</b>    | This is Recombinant Zika Virus Envelope Antigen which is expressed in E. coli with tag of His and the mw. is 19 kDa |
| <b>Species</b>             | Zika                                                                                                                |
| <b>Source</b>              | E.coli                                                                                                              |
| <b>Antigen Description</b> | Fine Specificity: truncated                                                                                         |
| <b>Molecular Mass</b>      | 19 kDa                                                                                                              |
| <b>Purity</b>              | SDS-PAGE~95%                                                                                                        |
| <b>Usage</b>               | ELISA & lateral flow immunoassay                                                                                    |
| <b>Storage</b>             | 2-8 C                                                                                                               |
| <b>Storage Buffer</b>      | PBS + arginine + 0.01% azide                                                                                        |
