

Recombinant Human CD274 protein, HlgG1 Fc-tagged, R-PE labeled

Cat. No. CD274-020HP **Lot. No.** (See product label)

SPECIFICATION

Product Overview	Recombinant Human CD274 Protein, was expressed in CHO cell with HlgG1 Fc tag and NH2-Reactive R-PE (R-Phycoerythrin) conjugate.
Species	Human
Source	CHO
Description	NH2-Reactive R-Phycoerythrin is used for antibody conjugation for immunostaining and cellular proteins for tracing. NH2-Reactive R-Phycoerythrin has succinimidyl ester groups, and can easily make a covalent bond with amino groups of protein without any activation process.
Form	Liquid in sterile PBS buffer pH 7.4 (may contains tiny amount of reaction buffer and R-Phycoerythrin).
Endotoxin	<1EU/ug by LAL method.
Stability	Sample is stable for at least 12 months when stored at -20 to -80°C from date of manufacture. For longer storage, add equal volume of glycerol to the sample solution and store at -20 to -80°C.
Storage	Store under sterile conditions at -20 to -80°C immediately after receipt. It is recommended that the protein be aliquoted for optimal storage. Avoid freeze-thaw cycles.
