

Recombinant Human USP11 Protein, GST-tagged

Cat. No. USP11-360H Lot. No. (See product label)

SPECIFICATION

Product Overview	Recombinant Human USP11 Protein is produced by Insect cells expression system. This protein is fused with a GST tag.
Species	Human
Source	Insect Cells
Description	Deubiquitinating enzymes (DUBs) are proteases that possess the ability to cleave ubiquitin chains or the isopeptide bond that conjugates ubiquitin with a substrate. Human cells have approximately 100 DUBs that play important roles in regulating various cellular events. Usp11 belongs to the ubiquitin-specific protease family. It helps in repairing DNA damage. It has been found to interact with RanBPM, a RanGTP-binding protein.UHX1.
