

# Recombinant SARS Coronavirus Nucleoprotein (N-Term, Mid) or the nucleocapsid core antigen

**Cat. No.** N-134V    **Lot. No.** (See product label)

## SPECIFICATION

|                         |                                                                                                                                                                                                                                |
|-------------------------|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>Product Overview</b> | Recombinant SARS Coronavirus Nucleoprotein (N-Term, Mid) or the nucleocapsid core antigen, comprising the N-term fused to an immunodominant region from the middle of the protein (aa 1-49, 192-220), was expressed in E.coli. |
| <b>Species</b>          | SARS-CoV                                                                                                                                                                                                                       |
| <b>Source</b>           | E.coli                                                                                                                                                                                                                         |
| <b>ProteinLength</b>    | 78                                                                                                                                                                                                                             |
| <b>Form</b>             | Liquid. 50mM Tris-HCl, 60mM NaCl and 50% glycerol.                                                                                                                                                                             |
| <b>Molecular Mass</b>   | 32 kDa                                                                                                                                                                                                                         |
| <b>Purity</b>           | >95% as determined by 10% PAGE (coomassie staining).                                                                                                                                                                           |
| <b>Applications</b>     | ELISA, Western blot.                                                                                                                                                                                                           |
| <b>Storage</b>          | Upon arrival, store at below -18 centigrade.                                                                                                                                                                                   |
| <b>Shipping</b>         | Dry Ice.                                                                                                                                                                                                                       |
| <b>Warning</b>          | For Research Use Only.                                                                                                                                                                                                         |
