

## Recombinant Arachis hypogaea allergen 8.0101 protein

**Cat. No.** Arah8-829P    **Lot. No.** (See product label)

### SPECIFICATION

|                         |                                                                                                                            |
|-------------------------|----------------------------------------------------------------------------------------------------------------------------|
| <b>Product Overview</b> | Recombinant Arachis hypogaea allergen 8.0101 protein was expressed in Pichia pastoris and purified by HPLC gel filtration. |
| <b>Species</b>          | Arachis hypogaea                                                                                                           |
| <b>Source</b>           | P.pastoris                                                                                                                 |
| <b>Form</b>             | Preservative-free and carrier-free in phosphate buffered saline, pH 7.4. Steriled filtered.                                |
| <b>Molecular Mass</b>   | 17kDa                                                                                                                      |
| <b>Purity</b>           | Purity > 95% by silver stained SDS-PAGE.                                                                                   |
| <b>Storage</b>          | (1) Store at -20°C. (2) Avoid freeze thaw cycles.                                                                          |
| <b>Warning</b>          | Allergens are provided for research and commercial use in vitro: not for human in vivo or therapeutic use.                 |
