

Recombinant Human ITGA6 & ITGB4 protein, Flag/His-tagged

Cat. No. ITGA6 & ITGB4-610H **Lot. No.** (See product label)

SPECIFICATION

Product Overview	Recombinant Human ITGA6 (Met1-Ser1011) & ITGB4 (Met1-Ser710) protein was fused to Flag/His-tag at the C-terminus and expressed in HEK293 Cells.
Species	Human
Source	HEK293
ProteinLength	ITGA6 (Met1-Ser1011) & ITGB4 (Met1-Ser710)
Description	The gene encodes a member of the integrin alpha chain family of proteins. Integrins are heterodimeric integral membrane proteins composed of an alpha chain and a beta chain that function in cell surface adhesion and signaling. The encoded preproprotein is proteolytically processed to generate light and heavy chains that comprise the alpha 6 subunit. This subunit may associate with a beta 1 or beta 4 subunit to form an integrin that interacts with extracellular matrix proteins including members of the laminin family. The alpha 6 beta 4 integrin may promote tumorigenesis, while the alpha 6 beta 1 integrin may negatively regulate erbB2/HER2 signaling. Alternative splicing results in multiple transcript variants.
Predicted N Terminal	Phe24 & Asn28
Form	Lyophilized from sterile PBS,pH 7.4. Normally 5% - 8% trehalose, mannitol and 0.01% Tween80 are added as protectants before lyophilization.

 45-1 Ramsey Road, Shirley, NY 11967, USA

Molecular Mass	The recombinant heterodimer of human ITGA6 & ITGB4 comprises 1754 (1030 + 724) amino acids and has a calculated molecular mass of 196 (115 + 81) kDa.
Endotoxin	< 1.0 EU per µg protein as determined by the LAL method.
Purity	> (38.3+44.4)% as determined by SDS-PAGE.
Stability	Samples are stable for up to twelve months from date of receipt at -20 to -80 centigrade.
Storage	Store it under sterile conditions at -20 to -80 centigrade. It is recommended that the protein be aliquoted for optimal storage. Avoid repeated freeze-thaw cycles.
Shipping	In general, recombinant proteins are provided as lyophilized powder which are shipped at ambient temperature. Bulk packages of recombinant proteins are provided as frozen liquid. They are shipped out with blue ice unless customers require otherwise.

GENE INFORMATION

Gene Name	ITGA6
Official Symbol	ITGA6
Synonyms	CD49f; VLA-6; ITGA6B
Gene ID	3655
mRNA Refseq	NM_001079818.3
Protein Refseq	NP_001073286.1
