

# Recombinant Human RASL10A Protein, MYC/DDK-tagged, C13 and N15-labeled

**Cat. No.** RASL10A-229H    **Lot. No.** (See product label)

## SPECIFICATION

|                         |                                                                                                                                                           |
|-------------------------|-----------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>Product Overview</b> | RASL10A MS Standard C13 and N15-labeled recombinant protein (NP_001007280) with a C-terminal MYC/DDK tag, was expressed in HEK293 cells.                  |
| <b>Species</b>          | Human                                                                                                                                                     |
| <b>Source</b>           | HEK293                                                                                                                                                    |
| <b>Description</b>      | Potent inhibitor of cellular proliferation.                                                                                                               |
| <b>Molecular Mass</b>   | 12.5 kDa                                                                                                                                                  |
| <b>AA Sequence</b>      | MGGSLRVAVLGAPGVGKTAIRQFLFGDYPERHRPTDGPRLYRPAVLLDGAVYDLSI<br>RDGDVAGPGSSPGGPPEWPDADKDWLQDTDAFVLVYDICSPDSFDYVKALRQRIA<br>ETRTRTRPLEQKLISEEDLAANDILDYKDDDDKV |
| <b>Purity</b>           | > 80% as determined by SDS-PAGE and Coomassie blue staining                                                                                               |
| <b>Stability</b>        | Stable for 3 months from receipt of products under proper storage and handling conditions.                                                                |
| <b>Storage</b>          | Store at -80 centigrade. Avoid repeated freeze-thaw cycles.                                                                                               |
| <b>Concentration</b>    | 50 µg/mL as determined by BCA                                                                                                                             |

**Storage Buffer** 100 mM glycine, 25 mM Tris-HCl, pH 7.3.

## GENE INFORMATION

**Gene Name** RASL10A RAS-like, family 10, member A [ Homo sapiens (human) ]

**Official Symbol** RASL10A

**Synonyms** RASL10A; RAS-like, family 10, member A; ras-like protein family member 10A; RRP22; ras-like protein RRP22; RAS-related on chromosome 22; ras-related protein on chromosome 22;

**Gene ID** 10633

**mRNA Refseq** NM\_001007279

**Protein Refseq** NP\_001007280

**MIM** 602220

**UniProt ID** Q92737
