

# Recombinant Human C10orf82 Protein, Myc/DDK-tagged, C13 and N15-labeled

**Cat. No.** C10orf82-1568H    **Lot. No.** (See product label)

## SPECIFICATION

|                         |                                                                                                                                                                                                       |
|-------------------------|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>Product Overview</b> | C10orf82 MS Standard C13 and N15-labeled recombinant protein (NP_653262) with a C-terminal MYC/DDK tag, was expressed in HEK293 cells.                                                                |
| <b>Species</b>          | Human                                                                                                                                                                                                 |
| <b>Source</b>           | HEK293                                                                                                                                                                                                |
| <b>Description</b>      | C10orf82 (Chromosome 10 Open Reading Frame 82) is a Protein Coding gene.                                                                                                                              |
| <b>Molecular Mass</b>   | 17.8 kDa                                                                                                                                                                                              |
| <b>AA Sequence</b>      | MEPSKTFMRNLPITPGYSGFVPFLSCQGMSKEDDMNHCVKTFQEKTQRYKEQLRE<br>LCCAVATAPKLKPVNSEETVLQALHQYNLQYHPLILECKYVKKPLQEPPIPGWAGYL<br>PRAKVTEFGCGTRYTVMAKNKYKDFLEITERAKKAHLKPYEETRTRPLEQKLISEEDL<br>AANDILDYKDDDDKV |
| <b>Purity</b>           | > 80% as determined by SDS-PAGE and Coomassie blue staining                                                                                                                                           |
| <b>Stability</b>        | Stable for 3 months from receipt of products under proper storage and handling conditions.                                                                                                            |
| <b>Storage</b>          | Store at -80 centigrade. Avoid repeated freeze-thaw cycles.                                                                                                                                           |
| <b>Concentration</b>    | 50 µg/mL as determined by BCA                                                                                                                                                                         |

**Storage Buffer** 100 mM glycine, 25 mM Tris-HCl, pH 7.3.

## GENE INFORMATION

**Gene Name** C10orf82 chromosome 10 open reading frame 82 [ Homo sapiens (human) ]

**Official Symbol** C10orf82

**Synonyms** C10ORF82; chromosome 10 open reading frame 82; uncharacterized protein  
C10orf82; Em:AC016825.4; MGC33547; FLJ40268;

**Gene ID** 143379

**mRNA Refseq** NM\_144661

**Protein Refseq** NP\_653262

**UniProt ID** Q8WW14
