

## Recombinant Human C4orf17 Protein, Myc/DDK-tagged, C13 and N15-labeled

**Cat. No.** C4orf17-1877H    **Lot. No.** (See product label)

### SPECIFICATION

|                         |                                                                                                                                                                                                                                                                                                                                                                                                                           |
|-------------------------|---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>Product Overview</b> | C4orf17 MS Standard C13 and N15-labeled recombinant protein (NP_115525) with a C-terminal MYC/DDK tag, was expressed in HEK293 cells.                                                                                                                                                                                                                                                                                     |

**Storage** Store at -80 centigrade. Avoid repeated freeze-thaw cycles.

**Concentration** 50 µg/mL as determined by BCA

**Storage Buffer** 100 mM glycine, 25 mM Tris-HCl, pH 7.3.

## GENE INFORMATION

**Gene Name** C4orf17 chromosome 4 open reading frame 17 [ Homo sapiens (human) ]

**Official Symbol** C4orf17

**Synonyms** C4orf17; chromosome 4 open reading frame 17; uncharacterized protein C4orf17

**Gene ID** 84103

**mRNA Refseq** NM\_032149

**Protein Refseq** NP\_115525

**UniProt ID** Q53FE4
