

# Recombinant Human C15orf40 Protein, Myc/DDK-tagged, C13 and N15-labeled

**Cat. No.** C15orf40-2976H    **Lot. No.** (See product label)

## SPECIFICATION

|                         |                                                                                                                                                                       |
|-------------------------|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>Product Overview</b> | C15orf40 MS Standard C13 and N15-labeled recombinant protein (NP_653198) with a C-terminal MYC/DDK tag, was expressed in HEK293 cells.                                |
| <b>Species</b>          | Human                                                                                                                                                                 |
| <b>Source</b>           | HEK293                                                                                                                                                                |
| <b>Description</b>      | Belongs to the UPF0235 family.                                                                                                                                        |
| <b>Molecular Mass</b>   | 13.3 kDa                                                                                                                                                              |

**Storage Buffer** 100 mM glycine, 25 mM Tris-HCl, pH 7.3.

## GENE INFORMATION

**Gene Name** C15orf40 chromosome 15 open reading frame 40 [ Homo sapiens (human) ]

**Official Symbol** C15orf40

**Synonyms** C15ORF40; chromosome 15 open reading frame 40; UPF0235 protein C15orf40; MGC29937; FLJ33606;

**Gene ID** 123207

**mRNA Refseq** NM\_144597

**Protein Refseq** NP\_653198

**UniProt ID** Q8WUR7
