

# Recombinant Human FAM24B Protein, Myc/DDK-tagged, C13 and N15-labeled

**Cat. No.** FAM24B-4667H    **Lot. No.** (See product label)

## SPECIFICATION

|                         |                                                                                                                                                                                   |
|-------------------------|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>Product Overview</b> | FAM24B MS Standard C13 and N15-labeled recombinant protein (NP_689857) with a C-terminal MYC/DDK tag, was expressed in HEK293 cells.                                              |
| <b>Species</b>          | Human                                                                                                                                                                             |
| <b>Source</b>           | HEK293                                                                                                                                                                            |
| <b>Description</b>      | FAM24B (Family With Sequence Similarity 24 Member B) is a Protein Coding gene. Diseases associated with FAM24B include Plantar Wart. An important paralog of this gene is FAM24A. |
| <b>Molecular Mass</b>   | 10.2 kDa                                                                                                                                                                          |
| <b>AA Sequence</b>      | MLVIAGGILAALLLLIVVVLCLYFKIHNALKAAKEPEAVAVKNHNPDKVWWAKNSQAK<br>TIATESCPALQCCEGYRMCASFDSLPPCCCDINEGLTRTRPLEQKLISEEDLAANDIL<br>DYKDDDDKV                                             |
| <b>Purity</b>           | > 80% as determined by SDS-PAGE and Coomassie blue staining                                                                                                                       |
| <b>Stability</b>        | Stable for 3 months from receipt of products under proper storage and handling conditions.                                                                                        |
| <b>Storage</b>          | Store at -80 centigrade. Avoid repeated freeze-thaw cycles.                                                                                                                       |

**Concentration** 50 µg/mL as determined by BCA

**Storage Buffer** 100 mM glycine, 25 mM Tris-HCl, pH 7.3.

## GENE INFORMATION

**Gene Name** FAM24B family with sequence similarity 24 member B [ Homo sapiens (human) ]

**Official Symbol** FAM24B

**Synonyms** FAM24B; family with sequence similarity 24 member B; protein FAM24B

**Gene ID** 196792

**mRNA Refseq** NM\_152644

**Protein Refseq** NP\_689857

**UniProt ID** Q8N5W8
