

# Recombinant Human C17orf64 Protein, Myc/DDK-tagged, C13 and N15-labeled

**Cat. No.** C17orf64-4872H    **Lot. No.** (See product label)

## SPECIFICATION

|                         |                                                                                                                                                                        |
|-------------------------|------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>Product Overview</b> | C17orf64 MS Standard C13 and N15-labeled recombinant protein (NP_859058) with a C-terminal MYC/DDK tag, was expressed in HEK293 cells.                                 |
| <b>Species</b>          | Human                                                                                                                                                                  |
| <b>Source</b>           | HEK293                                                                                                                                                                 |
| <b>Description</b>      | C17orf64 (Chromosome 17 Open Reading Frame 64) is a Protein Coding gene. Diseases associated with C17orf64 include Endometrial Serous Adenocarcinoma.                  |
| <b>Molecular Mass</b>   | 14.5 kDa                                                                                                                                                               |
| <b>AA Sequence</b>      | MLWRFISLFSELEAKQLRRLYKYTKSSQPAKFLVTFCASDAPERSLLADREDSLPKL<br>CHAWGLHSNISGMKERLSNMQTPGQGSPLPGQPRSQDHVKKDSLRELSQKPKLKR<br>KRIKEAPETPETEPTTRTRPLEQKLISEEDLAANDILDYKDDDDKV |
| <b>Purity</b>           | > 80% as determined by SDS-PAGE and Coomassie blue staining                                                                                                            |
| <b>Stability</b>        | Stable for 3 months from receipt of products under proper storage and handling conditions.                                                                             |
| <b>Storage</b>          | Store at -80 centigrade. Avoid repeated freeze-thaw cycles.                                                                                                            |
| <b>Concentration</b>    | 50 µg/mL as determined by BCA                                                                                                                                          |

**Storage Buffer** 100 mM glycine, 25 mM Tris-HCl, pH 7.3.

## GENE INFORMATION

**Gene Name** C17orf64 chromosome 17 open reading frame 64 [ Homo sapiens (human) ]

**Official Symbol** C17orf64

**Synonyms** C17ORF64; chromosome 17 open reading frame 64; uncharacterized protein C17orf64;

**Gene ID** 124773

**mRNA Refseq** NM\_181707

**Protein Refseq** NP\_859058

**UniProt ID** Q86WR6
