

# Recombinant Human TMEM215 Protein, Myc/DDK-tagged, C13 and N15-labeled

**Cat. No.** TMEM215-4885H    **Lot. No.** (See product label)

## SPECIFICATION

|                         |                                                                                                                                                                                                                                                                                             |
|-------------------------|---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>Product Overview</b> | TMEM215 MS Standard C13 and N15-labeled recombinant protein (NP_997723) with a C-terminal MYC/DDK tag, was expressed in HEK293 cells.                                                                                                                                                       |
| <b>Species</b>          | Human                                                                                                                                                                                                                                                                                       |
| <b>Source</b>           | HEK293                                                                                                                                                                                                                                                                                      |
| <b>Description</b>      | TMEM215 (Transmembrane Protein 215) is a Protein Coding gene.                                                                                                                                                                                                                               |
| <b>Molecular Mass</b>   | 25.6 kDa                                                                                                                                                                                                                                                                                    |
| <b>AA Sequence</b>      | MRPDDINPRTGLVVALVSVFLVFGFMFTVSGMKGETLGNIPLLAIGPAICLPGIAAIAL<br>ARKTEGCTKRPENELLWVRKLPCFRKPKDKEVVELLRTPSDLESGKGSSDELAKKA<br>GLRGKPPPPQSQGEVSVASSINSPTPTEEGECQSLVQNGHQEETSRYLDDGYCPSGS<br>SLTYSALDVKCSARDRSECPEPEDSIFFPQDSIIVCSYKQNSPYDRYCCYINQIQGR<br>WDHETIVTRTRPLEQKLISEEDLAANDILDYKDDDDKV |
| <b>Purity</b>           | > 80% as determined by SDS-PAGE and Coomassie blue staining                                                                                                                                                                                                                                 |
| <b>Stability</b>        | Stable for 3 months from receipt of products under proper storage and handling conditions.                                                                                                                                                                                                  |
| <b>Storage</b>          | Store at -80 centigrade. Avoid repeated freeze-thaw cycles.                                                                                                                                                                                                                                 |

**Concentration** 50 µg/mL as determined by BCA

**Storage Buffer** 100 mM glycine, 25 mM Tris-HCl, pH 7.3.

## GENE INFORMATION

**Gene Name** TMEM215 transmembrane protein 215 [ Homo sapiens (human) ]

**Official Symbol** TMEM215

**Synonyms** TMEM215; transmembrane protein 215; transmembrane protein 215

**Gene ID** 401498

**mRNA Refseq** NM\_212558

**Protein Refseq** NP\_997723

**UniProt ID** Q68D42
