

## Recombinant Human ANKRD29 Protein, Myc/DDK-tagged, C13 and N15-labeled

**Cat. No.** ANKRD29-5178H    **Lot. No.** (See product label)

### SPECIFICATION

|                         |                                                                                                                                                                                                                                                                                                                                                                   |
|-------------------------|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>Product Overview</b> | ANKRD29 MS Standard C13 and N15-labeled recombinant protein (NP_775776) with a C-terminal MYC/DDK tag, was expressed in HEK293 cells.                                                                                                                                                                                                                             |
| <b>Species</b>          | Human                                                                                                                                                                                                                                                                                                                                                             |
| <b>Source</b>           | HEK293                                                                                                                                                                                                                                                                                                                                                            |
| <b>Description</b>      | ANKRD29 (Ankyrin Repeat Domain 29) is a Protein Coding gene. Diseases associated with ANKRD29 include Transitional Papilloma. An important paralog of this gene is ASB12.                                                                                                                                                                                         |
| <b>Molecular Mass</b>   | 32.5 kDa                                                                                                                                                                                                                                                                                                                                                          |

**Storage** Store at -80 centigrade. Avoid repeated freeze-thaw cycles.

**Concentration** 50 µg/mL as determined by BCA

**Storage Buffer** 100 mM glycine, 25 mM Tris-HCl, pH 7.3.

## GENE INFORMATION

**Gene Name** ANKRD29 ankyrin repeat domain 29 [ Homo sapiens (human) ]

**Official Symbol** ANKRD29

**Synonyms** ANKRD29; ankyrin repeat domain 29; ankyrin repeat domain-containing protein 29

**Gene ID** 147463

**mRNA Refseq** NM\_173505

**Protein Refseq** NP\_775776

**UniProt ID** Q8N6D5
