

## Recombinant Human METTL26 Protein, Myc/DDK-tagged, C13 and N15-labeled

**Cat. No.** METTL26-5344H    **Lot. No.** (See product label)

### SPECIFICATION

|                         |                                                                                                                                                    |
|-------------------------|----------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>Product Overview</b> | C16orf13 MS Standard C13 and N15-labeled recombinant protein (NP_001035251) with a C-terminal MYC/DDK tag, was expressed in HEK293 cells.          |
| <b>Species</b>          | Human                                                                                                                                              |
| <b>Source</b>           | HEK293                                                                                                                                             |
| <b>Description</b>      | METTL26 (Methyltransferase Like 26) is a Protein Coding gene.                                                                                      |
| <b>Molecular Mass</b>   | 12 kDa                                                                                                                                             |
| <b>AA Sequence</b>      | MLVAAAERKNDPILHVLRLQYLDPAQRGVRVLEVASGSGQHAAHFARAFPLAEWQP<br>SDVDQRCLDRNPEWGLRDTALLEDLGKASGLLLERMVDMPANNKCLIFRKNTRTRP<br>LEQKLISEEDLAANDILDYKDDDDKV |
| <b>Purity</b>           | > 80% as determined by SDS-PAGE and Coomassie blue staining                                                                                        |
| <b>Stability</b>        | Stable for 3 months from receipt of products under proper storage and handling conditions.                                                         |
| <b>Storage</b>          | Store at -80 centigrade. Avoid repeated freeze-thaw cycles.                                                                                        |
| <b>Concentration</b>    | 50 µg/mL as determined by BCA                                                                                                                      |

**Storage Buffer** 100 mM glycine, 25 mM Tris-HCl, pH 7.3.

## GENE INFORMATION

**Gene Name** METTL26 methyltransferase like 26 [ Homo sapiens (human) ]

**Official Symbol** METTL26

**Synonyms** METTL26; methyltransferase like 26; JFP2; C16orf13; methyltransferase-like 26; UPF0585 protein C16orf13

**Gene ID** 84326

**mRNA Refseq** NM\_001040161

**Protein Refseq** NP\_001035251

**UniProt ID** Q96S19
