

# Recombinant Human C5orf24 Protein, Myc/DDK-tagged, C13 and N15-labeled

**Cat. No.** C5orf24-5348H    **Lot. No.** (See product label)

## SPECIFICATION

|                         |                                                                                                                                                                                                                                        |
|-------------------------|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>Product Overview</b> | C5orf24 MS Standard C13 and N15-labeled recombinant protein (NP_689622) with a C-terminal MYC/DDK tag, was expressed in HEK293 cells.                                                                                                  |
| <b>Species</b>          | Human                                                                                                                                                                                                                                  |
| <b>Source</b>           | HEK293                                                                                                                                                                                                                                 |
| <b>Description</b>      | C5orf24 (Chromosome 5 Open Reading Frame 24) is a Protein Coding gene.                                                                                                                                                                 |
| <b>Molecular Mass</b>   | 20.1 kDa                                                                                                                                                                                                                               |
| <b>AA Sequence</b>      | MMHPVASSNPFCGPGKPSCLNEDAMRAADQFDIYSSQQSKYSHTVNHKPMVCQ<br>RQDPLNETHLQTTSGRSIEIKDELKKKKNLNRSGKRGRPSGTTKSAGYRTSTGRPLG<br>TTKAAGFKTSPGRPLGTTKAAGYKVSPGRPPGSIKALSRLADLGYGCGTAAFPYPM<br>MHGRAVHGVEETSSEVKPPNETRTRPLEQKLISEEDLAANDILDYKDDDDKV |
| <b>Purity</b>           | > 80% as determined by SDS-PAGE and Coomassie blue staining                                                                                                                                                                            |
| <b>Stability</b>        | Stable for 3 months from receipt of products under proper storage and handling conditions.                                                                                                                                             |
| <b>Storage</b>          | Store at -80 centigrade. Avoid repeated freeze-thaw cycles.                                                                                                                                                                            |
| <b>Concentration</b>    | 50 µg/mL as determined by BCA                                                                                                                                                                                                          |

**Storage Buffer** 100 mM glycine, 25 mM Tris-HCl, pH 7.3.

## GENE INFORMATION

**Gene Name** C5orf24 chromosome 5 open reading frame 24 [ Homo sapiens (human) ]

**Official Symbol** C5orf24

**Synonyms** C5ORF24; chromosome 5 open reading frame 24; UPF0461 protein C5orf24; FLJ37562;

**Gene ID** 134553

**mRNA Refseq** NM\_152409

**Protein Refseq** NP\_689622

**UniProt ID** Q7Z6I8
