

## Recombinant Human C11orf86 Protein, Myc/DDK-tagged, C13 and N15-labeled

**Cat. No.** C11orf86-5755H    **Lot. No.** (See product label)

### SPECIFICATION

|                         |                                                                                                                                                             |
|-------------------------|-------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>Product Overview</b> | C11orf86 MS Standard C13 and N15-labeled recombinant protein (NP_001129957) with a C-terminal MYC/DDK tag, was expressed in HEK293 cells.                   |
| <b>Species</b>          | Human                                                                                                                                                       |
| <b>Source</b>           | HEK293                                                                                                                                                      |
| <b>Description</b>      | C11orf86 (Chromosome 11 Open Reading Frame 86) is a Protein Coding gene.                                                                                    |
| <b>Molecular Mass</b>   | 13 kDa                                                                                                                                                      |
| <b>AA Sequence</b>      | MGTGLRSQSLREPRPSYGKLPQEWGRPQEGQLRRALSLRQGQEKSRSSQGLERGT<br>EGPDATAQERVPGSLGDTEQLIQAQRRGSRWWLRRYQQVRRRWESFVAIFPSVTL<br>SQPASPTRTRPLEQKLISEEDLAANDILDYKDDDDKV |
| <b>Purity</b>           | > 80% as determined by SDS-PAGE and Coomassie blue staining                                                                                                 |
| <b>Stability</b>        | Stable for 3 months from receipt of products under proper storage and handling conditions.                                                                  |
| <b>Storage</b>          | Store at -80 centigrade. Avoid repeated freeze-thaw cycles.                                                                                                 |
| <b>Concentration</b>    | 50 µg/mL as determined by BCA                                                                                                                               |

**Storage Buffer** 100 mM glycine, 25 mM Tris-HCl, pH 7.3.

## GENE INFORMATION

**Gene Name** C11orf86 chromosome 11 open reading frame 86 [ Homo sapiens (human) ]

**Official Symbol** C11orf86

**Synonyms** C11orf86; chromosome 11 open reading frame 86; uncharacterized protein C11orf86;

**Gene ID** 254439

**mRNA Refseq** NM\_001136485

**Protein Refseq** NP\_001129957

**UniProt ID** A6NJI1
