

## Recombinant Human ANKRD39 Protein, Myc/DDK-tagged, C13 and N15-labeled

**Cat. No.** ANKRD39-5892H    **Lot. No.** (See product label)

### SPECIFICATION

|                         |                                                                                                                                                                                                                                  |
|-------------------------|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>Product Overview</b> | ANKRD39 MS Standard C13 and N15-labeled recombinant protein (NP_057550) with a C-terminal MYC/DDK tag, was expressed in HEK293 cells.                                                                                            |
| <b>Species</b>          | Human                                                                                                                                                                                                                            |
| <b>Source</b>           | HEK293                                                                                                                                                                                                                           |
| <b>Description</b>      | ANKRD39 (Ankyrin Repeat Domain 39) is a Protein Coding gene. Diseases associated with ANKRD39 include Perrault Syndrome. An important paralog of this gene is CDKN2D.                                                            |
| <b>Molecular Mass</b>   | 19.7 kDa                                                                                                                                                                                                                         |
| <b>AA Sequence</b>      | MATPRPCADGPCCSHPSAVLGVQQTLEEMDFERGIWSAALNGDLGRVKHLIQKAE<br>DPSQPDSAGYTALHYASRNGHYAVCQFLLESGAKCDAQTHGGATALHRASYCGHT<br>EITRLLLSHGSNPRVDDDDGMTSLHKAERGHGDCSLLLQHSPALKAIRDRKARLA<br>CDLLPCNSDLRDLLSSTRTRPLEQKLISEEDLAANDILDYKDDDDKV |
| <b>Purity</b>           | > 80% as determined by SDS-PAGE and Coomassie blue staining                                                                                                                                                                      |
| <b>Stability</b>        | Stable for 3 months from receipt of products under proper storage and handling conditions.                                                                                                                                       |
| <b>Storage</b>          | Store at -80 centigrade. Avoid repeated freeze-thaw cycles.                                                                                                                                                                      |

**Concentration** 50 µg/mL as determined by BCA

**Storage Buffer** 100 mM glycine, 25 mM Tris-HCl, pH 7.3.

## GENE INFORMATION

**Gene Name** ANKRD39 ankyrin repeat domain 39 [ Homo sapiens (human) ]

**Official Symbol** ANKRD39

**Synonyms** ANKRD39; ankyrin repeat domain 39; ankyrin repeat domain-containing protein 39; MGC41816;

**Gene ID** 51239

**mRNA Refseq** NM\_016466

**Protein Refseq** NP\_057550

**UniProt ID** Q53RE8
