

Active Recombinant Human Chordin-Like 1, His-tagged

Cat. No. CHRDL1-3189H **Lot. No.** (See product label)

SPECIFICATION

Product Overview	Recombinant Human CHRDL1 (Glu22-Cys450) fused with a Cterminal and 10His tag, was expressed in Mouse NSO Cells.
Species	Human
Source	Mammalian Cells
ProteinLength	22-450 a.a.
Description	This gene encodes an antagonist of bone morphogenetic protein 4. The encoded protein may play a role in topographic retinotectal projection and in the regulation of retinal angiogenesis in response to hypoxia. Alternatively spliced transcript variants encoding different isoforms have been described.
Molecular Mass	The protein has a calculated molecular mass of 50 kDa. The apparent molecular mass of the recombinant protein is approximately 60 KDa in SDS-PAGE under reducing conditions.
Predicted N terminal	Glu22
Formulation	Lyophilized from a 0.2 µ filtered solution in Acetonitrile and TFA.
Purity	>90%, by SDS-PAGE under reducing conditions and visualized by silver stain.
Activity	Measured by its ability to inhibit BMP-4-induced activity in MC3T3-E1 mouse

preosteoblast cells. The ED50 for this effect is typically 0.7 - 3.5 µg/mL in the presence of 50 ng/mL rhBMP-4 and 1 µg/mL of rmTSG.

Reconstitution Reconstitute at 200 µg/mL in sterile 4 mM HCl.

EndotoxinLevel < 0.01 EU per 1 µg of the protein by the LAL method.

Storage 12 months from date of receipt, 20 to 70 °C as supplied. Avoid repeated freezethaw cycles.

OfficialSymbol CHRDL1

GENE INFORMATION

Gene Name CHRDL1 chordin-like 1 [Homo sapiens]

Synonyms chordin-like 1; CHL; VOPT; NRLN1; dA141H5.1; CHRDL1; chordin-like protein 1; neuralin 1; neuralin-1; ventroptin; neurogenesin-1; OTTHUMP00000023853; OTTHUMP00000023854; OTTHUMP00000216338; Neurogenesin-1; Ventroptin; Neuralin-1

Gene ID 91851

mRNA Refseq NM_145234

Protein Refseq NP_660277

MIM 300350

UniProt ID Q9BU40

 Tel: 1-631-559-9269 1-516-512-3133

 Email: info@creative-biomart.com  Fax: 1-631-938-8127

 45-1 Ramsey Road, Shirley, NY 11967, USA

Chromosome Location	Xq23
Pathway	Signaling by BMP; Signal Transduction
Function	BMP signaling pathway; cell differentiation; multicellular organismal development; nervous system development; ossification
