

## Recombinant Mouse Eddm3b Protein, Myc/DDK-tagged

Cat. No. Eddm3b-2726M Lot. No. (See product label)

### SPECIFICATION

|                  |                                                                                                                                               |
|------------------|-----------------------------------------------------------------------------------------------------------------------------------------------|
| Product Overview | Purified recombinant protein of mouse full-length epididymal protein 3B (Eddm3b), with C-terminal MYC/DDK tag, expressed in HEK293T cells.    |
| Species          | Mouse                                                                                                                                         |
| Source           | HEK293                                                                                                                                        |
| Description      | Restricted expression toward genital fat pad adult (RPKM 65.1).                                                                               |
| Molecular Mass   | 17.7 kDa                                                                                                                                      |
| Purity           | > 80% as determined by SDS-PAGE and Coomassie blue staining                                                                                   |
| Stability        | Stable for 12 months from the date of receipt of the product under proper storage and handling conditions. Avoid repeated freeze-thaw cycles. |
| Storage          | Store at -80 centigrade after receiving vials.                                                                                                |
| Concentration    | >50 µg/mL as determined by microplate BCA method                                                                                              |
| Storage Buffer   | 25 mM Tris.HCl, pH 7.3, 100 mM glycine, 10% glycerol.                                                                                         |

### GENE INFORMATION

|           |                                                             |
|-----------|-------------------------------------------------------------|
| Gene Name | Eddm3b epididymal protein 3B [ Mus musculus (house mouse) ] |
