

Recombinant Mouse Psmb5 Protein, Myc/DDK-tagged

Cat. No. Psmb5-5181M **Lot. No.** (See product label)

SPECIFICATION

Product Overview	Purified recombinant protein of mouse full-length proteasome (prosome, macropain) subunit, beta type 5 (Psmb5), with C-terminal MYC/DDK tag, expressed in HEK293T cells.
Species	Mouse
Source	HEK293
Description	Component of the 20S core proteasome complex involved in the proteolytic degradation of most intracellular proteins. This complex plays numerous essential roles within the cell by associating with different regulatory particles. Associated with two 19S regulatory particles, forms the 26S proteasome and thus participates in the ATP-dependent degradation of ubiquitinated proteins. The 26S proteasome plays a key role in the maintenance of protein homeostasis by removing misfolded or damaged proteins that could impair cellular functions, and by removing proteins whose functions are no longer required. Associated with the PA200 or PA28, the 20S proteasome mediates ubiquitin-independent protein degradation. This type of proteolysis is required in several pathways including spermatogenesis (20S-PA200 complex) or generation of a subset of MHC class I-presented antigenic peptides (20S-PA28 complex). Within the 20S core complex, PSMB5 displays a chymotrypsin-like activity.
Molecular Mass	28.6 kDa

Purity	> 80% as determined by SDS-PAGE and Coomassie blue staining
Stability	Stable for 12 months from the date of receipt of the product under proper storage and handling conditions. Avoid repeated freeze-thaw cycles.
Storage	Store at -80 centigrade after receiving vials.
Concentration	>50 µg/mL as determined by microplate BCA method
Storage Buffer	25 mM Tris.HCl, pH 7.3, 100 mM glycine, 10% glycerol.

GENE INFORMATION

Gene Name	Psmb5 proteasome (prosome, macropain) subunit, beta type 5 [Mus musculus (house mouse)]
Official Symbol	Psmb5
Synonyms	PSMB5; proteasome (prosome, macropain) subunit, beta type 5; proteasome subunit beta type-5; proteasome chain 6; proteasome subunit X; macropain epsilon chain; proteasome epsilon chain; proteasome beta type subunit 5; multicatalytic endopeptidase complex epsilon chain; MGC118075
Gene ID	19173
mRNA Refseq	NM_011186
Protein Refseq	NP_035316
UniProt ID	O55234
