

Recombinant Mouse Spag5 Protein, Myc/DDK-tagged

Cat. No. Spag5-6070M **Lot. No.** (See product label)

SPECIFICATION

Product Overview	Purified recombinant protein of mouse full-length sperm associated antigen 5 (Spag5), with C-terminal MYC/DDK tag, expressed in HEK293T cells.
Species	Mouse
Source	HEK293
Description	Essential component of the mitotic spindle required for normal chromosome segregation and progression into anaphase. Required for chromosome alignment, normal timing of sister chromatid segregation, and maintenance of spindle pole architecture. In complex with SKAP, promotes stable microtubule-kinetochore attachments. May contribute to the regulation of separase activity. May regulate AURKA localization to mitotic spindle, but not to centrosomes and CCNB1 localization to both mitotic spindle and centrosomes. Involved in centriole duplication. Required for CDK5RAP22, CEP152, WDR62 and CEP63 centrosomal localization and promotes the centrosomal localization of CDK2. In non-mitotic cells, upon stress induction, inhibits mammalian target of rapamycin complex 1 (mTORC1) association and recruits the mTORC1 component RPTOR to stress granules (SGs), thereby preventing mTORC1 hyperactivation-induced apoptosis. May enhance GSK3B-mediated phosphorylation of other substrates, such as MAPT/TAU.
Molecular Mass	130.4 kDa
Purity	> 80% as determined by SDS-PAGE and Coomassie blue staining

Stability	Stable for 12 months from the date of receipt of the product under proper storage and handling conditions. Avoid repeated freeze-thaw cycles.
Storage	Store at -80 centigrade after receiving vials.
Concentration	>50 µg/mL as determined by microplate BCA method
Storage Buffer	25 mM Tris.HCl, pH 7.3, 100 mM glycine, 10% glycerol.

GENE INFORMATION

Gene Name	Spag5 sperm associated antigen 5 [<i>Mus musculus</i> (house mouse)]
Official Symbol	Spag5
Synonyms	SPAG5; sperm associated antigen 5; sperm-associated antigen 5; astrin; microtubule-associated protein; mitotic spindle-associated protein p126; S17; MAP126; Deepest; Mastrin; AI874642; D11Bhm180e
Gene ID	54141
mRNA Refseq	NM_017407
Protein Refseq	NP_059103
UniProt ID	Q7TME2
