

## Recombinant Human C19orf24, GST-tagged

**Cat. No.** C19orf24-10432H    **Lot. No.** (See product label)

### SPECIFICATION

|                         |                                                                                                                                                                   |
|-------------------------|-------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>Product Overview</b> | Recombinant Human C19orf24 protein, fused to GST-tag, was expressed in E.coli and purified by GSH-sepharose.                                                      |
| <b>Species</b>          | Human                                                                                                                                                             |
| <b>Source</b>           | E.coli                                                                                                                                                            |
| <b>ProteinLength</b>    | 1-132a.a.                                                                                                                                                         |
| <b>Storage</b>          | The protein is stored in PBS buffer at -20°C. Avoid repeated freezing and thawing cycles.                                                                         |
| <b>Storage Buffer</b>   | 1M PBS (58mM Na <sub>2</sub> HPO <sub>4</sub> , 17mM NaH <sub>2</sub> PO <sub>4</sub> , 68mM NaCl, pH8. ) added with 100mM GSH and 1% Triton X-100, 15% glycerol. |

### GENE INFORMATION

|                        |                                                                                                     |
|------------------------|-----------------------------------------------------------------------------------------------------|
| <b>Gene Name</b>       | C19orf24 chromosome 19 open reading frame 24 [ Homo sapiens ]                                       |
| <b>Official Symbol</b> | C19orf24                                                                                            |
| <b>Synonyms</b>        | C19ORF24; chromosome 19 open reading frame 24; uncharacterized membrane protein C19orf24; FLJ20640; |
| <b>Gene ID</b>         | 55009                                                                                               |
