

# Recombinant Human C2orf7, His-tagged

**Cat. No.** C2orf7-10520H    **Lot. No.** (See product label)

## SPECIFICATION

|                         |                                                                                                                                                                       |
|-------------------------|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>Product Overview</b> | Recombinant Human C2orf7 protein, fused to His-tag, was expressed in E.coli and purified by Ni-sepharose.                                                             |
| <b>Species</b>          | Human                                                                                                                                                                 |
| <b>Source</b>           | E.coli                                                                                                                                                                |
| <b>ProteinLength</b>    | 1-188a.a.                                                                                                                                                             |
| <b>Storage</b>          | The protein is stored in PBS buffer at -20°C. Avoid repeated freezing and thawing cycles.                                                                             |
| <b>Storage Buffer</b>   | 1M PBS (58mM Na <sub>2</sub> HPO <sub>4</sub> , 17mM NaH <sub>2</sub> PO <sub>4</sub> , 68mM NaCl, pH8. ) added with 300mM Imidazole and 0.7% Sarcosyl, 15% glycerol. |

## GENE INFORMATION

|                        |                                                                                                                                                                                                                 |
|------------------------|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>Gene Name</b>       | PRADC1 protease-associated domain containing 1 [ Homo sapiens ]                                                                                                                                                 |
| <b>Official Symbol</b> | PRADC1                                                                                                                                                                                                          |
| <b>Synonyms</b>        | C2orf7; hPAP21; MGC13004; PADC1_HUMAN; PAP21; Pradc1; Protease associated domain containing 1; Protease-associated domain-containing protein 1; Protease-associated domain-containing protein of 21 kDa; PRADC1 |
