

## Recombinant Human C2orf69 protein, His&Myc-tagged

**Cat. No.** C2orf69-165H    **Lot. No.** (See product label)

### SPECIFICATION

|                         |                                                                                                                                                                                                                                                                                                                                                                                                  |
|-------------------------|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>Product Overview</b> | Recombinant Human C2orf69 protein(Q8N8R5)(25-385aa), fused to N-terminal His tag and C-terminal Myc tag, was expressed in Insect Cells.                                                                                                                                                                                                                                                          |
| <b>Species</b>          | Human                                                                                                                                                                                                                                                                                                                                                                                            |
| <b>Source</b>           | Insect Cells                                                                                                                                                                                                                                                                                                                                                                                     |
| <b>ProteinLength</b>    | 25-385aa                                                                                                                                                                                                                                                                                                                                                                                         |
| <b>Form</b>             | If the delivery form is liquid, the default storage buffer is Tris/PBS-based buffer, 5%-50% glycerol. If the delivery form is lyophilized powder, the buffer before lyophilization is Tris/PBS-based buffer, 6% Trehalose, pH 8.0.                                                                                                                                                               |
| <b>Molecular Mass</b>   | 44.7kDa                                                                                                                                                                                                                                                                                                                                                                                          |

**Storage**

Store at -20°C upon receipt, aliquoting is necessary for mutiple use. Avoid repeated freeze-thaw cycles.

**Reconstitution**

Please reconstitute protein in deionized sterile water to a concentration of 0.1-1.0 mg/mL. We recommend to add 5-50% of glycerol (final concentration) and aliquot for long-term storage at -20°C/-80°C.

**GENE INFORMATION**
**Gene Name**

C2orf69 chromosome 2 open reading frame 69 [ Homo sapiens ]

**Official Symbol**

C2orf69

**Synonyms**

C2ORF69; chromosome 2 open reading frame 69; UPF0565 protein C2orf69; FLJ38973; hypothetical protein FLJ38973;

**Gene ID**

205327

**mRNA Refseq**

NM\_153689

**Protein Refseq**

NP\_710156

**UniProt ID**

Q8N8R5
