

# Recombinant Human IL26 protein, His-Trx-tagged

**Cat. No.** IL26-4327H    **Lot. No.** (See product label)

## SPECIFICATION

|                         |                                                                                                                                                                                                                                    |
|-------------------------|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>Product Overview</b> | Recombinant Human IL26 protein(Q9NPH9)(22-171aa), fused to N-terminal His tag and Trx tag, was expressed in E. coli.                                                                                                               |
| <b>Species</b>          | Human                                                                                                                                                                                                                              |
| <b>Source</b>           | E.coli                                                                                                                                                                                                                             |
| <b>ProteinLength</b>    | 22-171aa                                                                                                                                                                                                                           |
| <b>Form</b>             | If the delivery form is liquid, the default storage buffer is Tris/PBS-based buffer, 5%-50% glycerol. If the delivery form is lyophilized powder, the buffer before lyophilization is Tris/PBS-based buffer, 6% Trehalose, pH 8.0. |
| <b>Molecular Mass</b>   | 35.8 kDa                                                                                                                                                                                                                           |
| <b>AA Sequence</b>      | KHKQSSFTKSCYPRGTLTQAVDALYKAAWLKATIPEDRIKNIRLLKKTKKQFMKNC<br>QFQEQLLSFFMEDVFGQLQLQGCKKIRFVEDFHSLRQKLSHCISCASSAREMKSITR<br>MKRIFYRIGNKGIYKAISELDILLSWIKKLLESSQ                                                                       |
| <b>Purity</b>           | Greater than 90% as determined by SDS-PAGE.                                                                                                                                                                                        |
| <b>Storage</b>          | Store at -20°C upon receipt, aliquoting is necessary for mutiple use. Avoid repeated freeze-thaw cycles.                                                                                                                           |
| <b>Reconstitution</b>   | Please reconstitute protein in deionized sterile water to a concentration of 0.1-1.0                                                                                                                                               |

 45-1 Ramsey Road, Shirley, NY 11967, USA

mg/mL. We recommend to add 5-50% of glycerol (final concentration) and aliquot for long-term storage at -20°C/-80°C.

## GENE INFORMATION

|                 |                                                            |
|-----------------|------------------------------------------------------------|
| Gene Name       | IL26 interleukin 26 [ Homo sapiens ]                       |
| Official Symbol | IL26                                                       |
| Synonyms        | IL26; interleukin 26; interleukin-26; AK155; IL 26; IL-26; |
| Gene ID         | 55801                                                      |
