

# Recombinant Human RNF103 protein, His-tagged

**Cat. No.** RNF103-3726H    **Lot. No.** (See product label)

## SPECIFICATION

|                         |                                                                                                                                                                                                                                                                                     |
|-------------------------|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>Product Overview</b> | Recombinant Human RNF103 protein(432-685 aa), fused to His tag, was expressed in E. coli.                                                                                                                                                                                           |
| <b>Species</b>          | Human                                                                                                                                                                                                                                                                               |
| <b>Source</b>           | E.coli                                                                                                                                                                                                                                                                              |
| <b>ProteinLength</b>    | 432-685 aa                                                                                                                                                                                                                                                                          |
| <b>Form</b>             | The purified protein was Lyophilized from sterile PBS (58mM Na <sub>2</sub> HPO <sub>4</sub> , 17mM NaH <sub>2</sub> PO <sub>4</sub> , 68mM NaCl, pH7.4). 5 % trehalose and 5 % mannitol are added as protectant before lyophilization. The elution buffer contain 300mM imidazole. |
| <b>AA Sequence</b>      | DYFEKKRRRRNNNNDEVNANNLEWLSSLWDWYTSYLFHPIASFQNFVSDWDEDP<br>DLFLERLAFDPLWLHPLIPTDYIKNLPMWRFKCLGVQSEEMSEGSQDTENDSESE<br>NTDTLSSEKEVFEDKQSVLHNSPGTASHCDAEACSCANKYCQTSPCERKGRSYGS<br>YNTNEDMEPDWLTWPADMLHCTECVVCLNFENGCLLMGLPCGHVHFHQN CIVMW<br>LAGGRHCCPVCRWPSYKKKQPYAQHQPLSNDVPS       |
| <b>Purity</b>           | 95%, by SDS-PAGE with Coomassie Brilliant Blue staining.                                                                                                                                                                                                                            |
| <b>Storage</b>          | Short-term storage: Store at 2-8°C for (1-2 weeks).<br>Long-term storage: Aliquot and store at -20°C to -80°C for up to 3 months, buffer containing 50% glycerol is recommended for reconstitution. Avoid repeat freeze-thaw cycles.                                                |

 45-1 Ramsey Road, Shirley, NY 11967, USA

**Reconstitution** Reconstitute at 0.25 g/μl in 200 μl sterile water for short-term storage.  
Reconstitution with 200 μl 50% glycerol solution is recommended for longer term storage.

## GENE INFORMATION

**Gene Name** RNF103 ring finger protein 103 [ Homo sapiens ]

**Official Symbol** RNF103

**Synonyms** RNF103; ring finger protein 103; ZFP103, zinc finger protein 103 homolog (mouse); E3 ubiquitin-protein ligase RNF103; hkf 1; KF1; zinc finger protein 103 homolog; zinc finger protein expressed in cerebellum; KF-1; HKF-1; ZFP103; ZFP-103; MGC41857; MGC102815;

**Gene ID** 7844

**mRNA Refseq** NM\_001198951

**Protein Refseq** NP\_001185880

**MIM** 602507

**UniProt ID** O00237
