

# Recombinant Human TBC1D23 protein, His-tagged

**Cat. No.** TBC1D23-3738H    **Lot. No.** (See product label)

## SPECIFICATION

|                         |                                                                                                                                                                                                                                                                                                                                                        |
|-------------------------|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>Product Overview</b> | Recombinant Human TBC1D23 protein(1-320 aa), fused to His tag, was expressed in E. coli.                                                                                                                                                                                                                                                               |
| <b>Species</b>          | Human                                                                                                                                                                                                                                                                                                                                                  |
| <b>Source</b>           | E.coli                                                                                                                                                                                                                                                                                                                                                 |
| <b>ProteinLength</b>    | 1-320 aa                                                                                                                                                                                                                                                                                                                                               |
| <b>Form</b>             | The purified protein was Lyophilized from sterile PBS (58mM Na <sub>2</sub> HPO <sub>4</sub> , 17mM NaH <sub>2</sub> PO <sub>4</sub> , 68mM NaCl, pH7.4). 5 % trehalose and 5 % mannitol are added as protectant before lyophilization. The elution buffer contain 300mM imidazole.                                                                    |

| <b>Purity</b>           | 95%, by SDS-PAGE with Coomassie Brilliant Blue staining.                                                                                                                                                                                                                                                                                               |
| <b>Storage</b>          | Short-term storage: Store at 2-8°C for (1-2 weeks).<br>Long-term storage: Aliquot and store at -20°C to -80°C for up to 3 months, buffer containing 50% glycerol is recommended for reconstitution. Avoid repeat freeze-thaw                                                                                                                           |

cycles.

**Reconstitution**

Reconstitute at 0.25 g/μl in 200 μl sterile water for short-term storage.

Reconstitution with 200 μl 50% glycerol solution is recommended for longer term storage.

## GENE INFORMATION

**Gene Name**

TBC1D23 TBC1 domain family, member 23 [ Homo sapiens ]

**Official Symbol**

TBC1D23

**Synonyms**

TBC1D23; TBC1 domain family, member 23; TBC1 domain family member 23; FLJ11046; HCV nonstructural protein 4A-transactivated protein 1; HCV non-structural protein 4A-transactivated protein 1; NS4ATP1; DKFZp667G062;

**Gene ID**

55773

**mRNA Refseq**

NM\_001199198

**Protein Refseq**

NP\_001186127

**UniProt ID**

Q9NUY8
