

## Recombinant Mouse Pmaip1 protein, His-tagged

**Cat. No.** Pmaip1-3349M    **Lot. No.** (See product label)

### SPECIFICATION

|                         |                                                                                                                                                                                                                                       |
|-------------------------|---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>Product Overview</b> | Recombinant Mouse Pmaip1 protein(Q9JM54)(1-103aa), fused to N-terminal His tag, was expressed in E. coli.                                                                                                                             |
| <b>Species</b>          | Mouse                                                                                                                                                                                                                                 |
| <b>Source</b>           | E.coli                                                                                                                                                                                                                                |
| <b>ProteinLength</b>    | 1-103aa                                                                                                                                                                                                                               |
| <b>Form</b>             | If the delivery form is liquid, the default storage buffer is Tris/PBS-based buffer, 5%-50% glycerol.<br>If the delivery form is lyophilized powder, the buffer before lyophilization is Tris/PBS-based buffer, 6% Trehalose, pH 8.0. |
| <b>Molecular Mass</b>   | 15.6 kDa                                                                                                                                                                                                                              |
| <b>AA Sequence</b>      | MPGRKARRNAPVNPTRAELPPEFAAQLRKIGDKVYCTWSAPDITVVLAQMPGKSQK<br>SRMRSPSPTRVPADLKDECAQLRRIGDKVNLNRQKLLNLISKLFNLVT                                                                                                                          |
| <b>Purity</b>           | Greater than 85% as determined by SDS-PAGE.                                                                                                                                                                                           |
| <b>Storage</b>          | Store at -20°C/-80°C upon receipt, aliquoting is necessary for mutiple use. Avoid repeated freeze-thaw cycles.                                                                                                                        |
| <b>Reconstitution</b>   | Please reconstitute protein in deionized sterile water to a concentration of 0.1-1.0                                                                                                                                                  |

mg/mL. We recommend to add 5-50% of glycerol (final concentration) and aliquot for long-term storage at -20°C/-80°C. Our default final concentration of glycerol is 50%.

## GENE INFORMATION

|                 |                                                                                |
|-----------------|--------------------------------------------------------------------------------|
| Gene Name       | Pmaip1 phorbol-12-myristate-13-acetate-induced protein 1 [ Mus musculus ]      |
| Official Symbol | Pmaip1                                                                         |
| Synonyms        | PMAIP1; phorbol-12-myristate-13-acetate-induced protein 1; protein Noxa; Noxa; |
| Gene ID         | 58801                                                                          |
| mRNA Refseq     | NM_021451                                                                      |
| Protein Refseq  | NP_067426                                                                      |
