

## Recombinant Human RELN protein, His-tagged

**Cat. No.** RELN-3422H    **Lot. No.** (See product label)

### SPECIFICATION

|                         |                                                                                                                                                                                                                                                     |
|-------------------------|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>Product Overview</b> | Recombinant Human RELN protein(P78509)(26-254aa), fused to N-terminal His tag, was expressed in E. coli.                                                                                                                                            |
| <b>Species</b>          | Human                                                                                                                                                                                                                                               |
| <b>Source</b>           | E.coli                                                                                                                                                                                                                                              |
| <b>ProteinLength</b>    | 26-254aa                                                                                                                                                                                                                                            |
| <b>Form</b>             | <p>If the delivery form is liquid, the default storage buffer is Tris/PBS-based buffer, 5%-50% glycerol.</p> <p>If the delivery form is lyophilized powder, the buffer before lyophilization is Tris/PBS-based buffer, 6% Trehalose, pH 8.0.</p>    |
| <b>Molecular Mass</b>   | 28.9 kDa                                                                                                                                                                                                                                            |
| <b>AA Sequence</b>      | AAGYYPRFSPFFFLCTHHGELEGDGEQGEVLISLHIAGNPTYYPGQYHVTISTSTF<br>FDGLLVTGLYTSTSVQASQSIGGSSAFGFGIMSDHQFGNQFMCSVVASHVSHLPTT<br>NLSFIWIAPPAGTGCNVFMATATHRGQVIFKDALAQQQLCEQGAPTDVTVHPHLAEIH<br>SDSIILRDDFDSYHQLQLNPNIWVECNCETGEQCGAIMHGNAVTFCPEYGPRELIT<br>T |
| <b>Purity</b>           | Greater than 90% as determined by SDS-PAGE.                                                                                                                                                                                                         |
| <b>Storage</b>          | Store at -20°C/-80°C upon receipt, aliquoting is necessary for mutiple use. Avoid                                                                                                                                                                   |

repeated freeze-thaw cycles.

#### Reconstitution

Please reconstitute protein in deionized sterile water to a concentration of 0.1-1.0 mg/mL. We recommend to add 5-50% of glycerol (final concentration) and aliquot for long-term storage at -20°C/-80°C. Our default final concentration of glycerol is 50%.

## GENE INFORMATION

**Gene Name** RELN reelin [ Homo sapiens ]

**Official Symbol** RELN

**Synonyms** RELN; reelin; PRO1598; RL; LIS2;

**Gene ID** 5649

**mRNA Refseq** NM\_005045

**Protein Refseq** NP\_005036

**MIM** 600514

**UniProt ID** P78509
