

# Recombinant *Bacillus cereus* uvsE protein, His&Myc-tagged

**Cat. No.** uvsE-4299B    **Lot. No.** (See product label)

## SPECIFICATION

|                         |                                                                                                                                                                                                                                                                                                                                                                             |
|-------------------------|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>Product Overview</b> | Recombinant <i>Bacillus cereus</i> uvsE protein(B7IR00)(1-317aa), fused to N-terminal His tag and C-terminal Myc tag, was expressed in <i>E. coli</i> .                                                                                                                                                                                                                     |
| <b>Species</b>          | <i>Bacillus cereus</i>                                                                                                                                                                                                                                                                                                                                                      |
| <b>Source</b>           | <i>E. coli</i>                                                                                                                                                                                                                                                                                                                                                              |
| <b>ProteinLength</b>    | 1-317aa                                                                                                                                                                                                                                                                                                                                                                     |
| <b>Form</b>             | <p>If the delivery form is liquid, the default storage buffer is Tris/PBS-based buffer, 5%-50% glycerol.</p> <p>If the delivery form is lyophilized powder, the buffer before lyophilization is Tris/PBS-based buffer, 6% Trehalose, pH 8.0.</p>                                                                                                                            |
| <b>Molecular Mass</b>   | 44.0 kDa                                                                                                                                                                                                                                                                                                                                                                    |

**Storage**

Store at -20°C/-80°C upon receipt, aliquoting is necessary for multiple use. Avoid repeated freeze-thaw cycles.

**Reconstitution**

Please reconstitute protein in deionized sterile water to a concentration of 0.1-1.0 mg/mL. We recommend to add 5-50% of glycerol (final concentration) and aliquot for long-term storage at -20°C/-80°C. Our default final concentration of glycerol is 50%.
