

## Recombinant Human FBXL15, His-tagged

Cat. No. FBXL15-12773H    Lot. No. (See product label)

### SPECIFICATION

|                  |                                                                                                                                                                      |
|------------------|----------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Product Overview | Recombinant Human FBXL15 protein, fused to His-tag, was expressed in E.coli and purified by Ni-sepharose.                                                            |
| Species          | Human                                                                                                                                                                |
| Source           | E.coli                                                                                                                                                               |
| ProteinLength    | 1-300a.a.                                                                                                                                                            |
| Storage          | The protein is stored in PBS buffer at -20°C. Avoid repeated freezing and thawing cycles.                                                                            |
| Storage Buffer   | 1M PBS (58mM Na <sub>2</sub> HPO <sub>4</sub> , 17mM NaH <sub>2</sub> PO <sub>4</sub> , 68mM NaCl, pH8. ) added with 300mM Imidazole and 0.7% Sarcosyl, 15%glycerol. |

### GENE INFORMATION

|                 |                                                                                                                                                                                                                        |
|-----------------|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Gene Name       | FBXL15 F-box and leucine-rich repeat protein 15 [ Homo sapiens ]                                                                                                                                                       |
| Official Symbol | FBXL15                                                                                                                                                                                                                 |
| Synonyms        | FBXL15; F-box and leucine-rich repeat protein 15; F box only protein 37 , FBXO37; F-box/LRR-repeat protein 15; Fbl15; MGC11279; F-box only protein 37; pleckstrin and Sec7 domain protein; JET; PSD; FBXO37; FLJ16137; |
