

# Recombinant Monkeypox Virus Protein, MPXVgp010

**Cat. No.** MPXV-0771    **Lot. No.** (See product label)

## SPECIFICATION

|                         |                                                                                                                                  |
|-------------------------|----------------------------------------------------------------------------------------------------------------------------------|
| <b>Product Overview</b> | Recombinant Monkeypox Virus Protein, MPXVgp010 full length or partial length was expressed.                                      |
| <b>Species</b>          | MPX                                                                                                                              |
| <b>Source</b>           | Mammalian Cells                                                                                                                  |
| <b>ProteinLength</b>    | 401 aa                                                                                                                           |
| <b>Description</b>      | ankyrin-like protein                                                                                                             |
| <b>Form</b>             | Liquid or lyophilized powder                                                                                                     |
| <b>Endotoxin</b>        | < 1.0 EU per µg of the protein as determined by the LAL method.                                                                  |
| <b>Purity</b>           | >80%                                                                                                                             |
| <b>Notes</b>            | This item requires custom production and lead time is between 5-9 weeks. We can custom produce according to your specifications. |
| <b>Storage</b>          | Store it at +4 °C for short term. For long term storage, store it at -20 °C~-80 °C.                                              |
| <b>Storage Buffer</b>   | PBS buffer                                                                                                                       |
| <b>Protein Names</b>    | MPXVgp010                                                                                                                        |

## GENE INFORMATION

|                 |                                                            |
|-----------------|------------------------------------------------------------|
| Gene Name       | D7L ankyrin-like protein [ Monkeypox virus Zaire-96-I-16 ] |
| Official Symbol | D7L                                                        |
| Synonyms        | MPXVgp010                                                  |
| Gene ID         | 928974                                                     |
| Protein Refseq  | NP_536437.1                                                |
| UniProt ID      | A0A7H0DNH5                                                 |
