

Recombinant Human CENPB Protein, His-tagged

Cat. No. CENPB-740H **Lot. No.** (See product label)

SPECIFICATION

Product Overview	Recombinant Human CENPB Protein (Gly2-Ser136) with His tag was expressed in E. coli.
Species	Human
Source	E.coli
ProteinLength	Gly2-Ser136
Description	This gene product is a highly conserved protein that facilitates centromere formation. It is a DNA-binding protein that is derived from transposases of the pogo DNA transposon family. It contains a helix-loop-helix DNA binding motif at the N-terminus, and a dimerization domain at the C-terminus. The DNA binding domain recognizes and binds a 17-bp sequence (CENP-B box) in the centromeric alpha satellite DNA. This protein is proposed to play an important role in the assembly of specific centromere structures in interphase nuclei and on mitotic chromosomes. It is also considered a major centromere autoantigen recognized by sera from patients with anti-centromere antibodies.
Form	Freeze-dried powder
Molecular Mass	Predicted Molecular Mass: 19.1 kDa; Accurate Molecular Mass: 19 kDa
Purity	> 97%

 45-1 Ramsey Road, Shirley, NY 11967, USA

Applications	Positive Control; Immunogen; SDS-PAGE; WB.
Stability	The thermal stability is described by the loss rate. The loss rate was determined by accelerated thermal degradation test, that is, incubate the protein at 37 centigrade for 48h, and no obvious degradation and precipitation were observed. The loss rate is less than 5% within the expiration date under appropriate storage condition.
Storage	Avoid repeated freeze/thaw cycles. Store at 2-8 centigrade for one month. Aliquot and store at -80 centigrade for 12 months.
Storage Buffer	20mM Tris, 150mM NaCl, pH8.0, containing 1mM EDTA, 1mM DTT, 0.01% SKL, 5% Trehalose and Proclin300.
Reconstitution	Reconstitute in 20mM Tris, 150mM NaCl (pH8.0) to a concentration of 0.1-1.0 mg/mL. Do not vortex.

GENE INFORMATION

Gene Name	CENPB centromere protein B, 80kDa [Homo sapiens (human)]
Official Symbol	CENPB
Synonyms	CENPB; centromere protein B, 80kDa; centromere protein B (80kD); major centromere autoantigen B; CENP-B; centromere autoantigen B;
Gene ID	1059
mRNA Refseq	NM_001810
Protein Refseq	NP_001801
