

## Recombinant Human HDGF2, GST-tagged

Cat. No. HDGF2-13716H Lot. No. (See product label)

### SPECIFICATION

|                  |                                                                                                                                                                                                   |
|------------------|---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Product Overview | Recombinant Human HDGF2 protein, fused to GST-tag, was expressed in E.coli and purified by GSH-sepharose.                                                                                         |
| Species          | Human                                                                                                                                                                                             |
| Source           | E.coli                                                                                                                                                                                            |
| ProteinLength    | 421-670a.a.                                                                                                                                                                                       |
| Description      | This gene encodes a member of the hepatoma-derived growth factor (HDGF) family. Two alternatively spliced transcript variants encoding slightly different isoforms have been found for this gene. |
| Storage          | The protein is stored in PBS buffer at -20°C. Avoid repeated freezing and thawing cycles.                                                                                                         |
| Storage Buffer   | 1M PBS (58mM Na <sub>2</sub> HPO <sub>4</sub> , 17mM NaH <sub>2</sub> PO <sub>4</sub> , 68mM NaCl, pH8. ) added with 100mM GSH and 1% Triton X-100, 15% glycerol.                                 |

### GENE INFORMATION

|                 |                                                                           |
|-----------------|---------------------------------------------------------------------------|
| Gene Name       | HDGFRP2 hepatoma-derived growth factor-related protein 2 [ Homo sapiens ] |
| Official Symbol | HDGFRP2                                                                   |
