

# Active Recombinant COVID-19 Spike Trimer protein(BA.2/Omicron), His-Avi-tagged, Biotinylated

**Cat. No.** Spike-739V    **Lot. No.** (See product label)

## SPECIFICATION

|                         |                                                                                                                                                                                                                                                                                                                                                                                                                                                                 |
|-------------------------|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>Product Overview</b> | Biotinylated Recombinant COVID-19 Spike Trimer protein(BA.2/Omicron)(Val 16 - Pro 1213) (Accession # QHD43416.1(T19I, LPP24-26del, A27S, G142D, V213G, G339D, S371F, S373P, S375F, T376A, D405N, R408S, K417N, N440K, S477N, T478K, E484A, Q493R, Q498R, N501Y, Y505H, D614G, H655Y, N679K, P681H, N764K, D796Y, Q954H, N969K, R683A, R685A, F817P, A892P, A899P, A942P, K986P, V987P)), fused with His and Avi tag at the C-terminus, was expressed in HEK293. |
| <b>Species</b>          | Sars-CoV-2                                                                                                                                                                                                                                                                                                                                                                                                                                                      |
| <b>Source</b>           | HEK293                                                                                                                                                                                                                                                                                                                                                                                                                                                          |
| <b>ProteinLength</b>    | Val 16 - Pro 1213                                                                                                                                                                                                                                                                                                                                                                                                                                               |
| <b>Form</b>             | Lyophilized from 0.22 µm filtered solution in PBS. Normally trehalose is added as protectant before lyophilization.                                                                                                                                                                                                                                                                                                                                             |
| <b>Bio-activity</b>     | Immobilized Biotinylated SARS-CoV-2 Spike Trimer, His,Avitag (BA.2/Omicron) at 1 µg/mL (100 µL/well) on streptavidin precoated (0.5 µg/well) plate can bind Human ACE2, Fc Tag with a linear range of 0.1-6 ng/mL.                                                                                                                                                                                                                                              |
| <b>Molecular Mass</b>   | The protein has a calculated MW of 139.7 kDa. The protein migrates as 160-190 kDa under reducing (R) condition (SDS-PAGE) due to glycosylation.                                                                                                                                                                                                                                                                                                                 |
| <b>Endotoxin</b>        | Less than 1.0 EU per                                                                                                                                                                                                                                                                                                                                                                                                                                            |

|                       |                                                                                                                                                                               |
|-----------------------|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
|                       | µg by the LAL method.                                                                                                                                                         |
| <b>Purity</b>         | >95% as determined by SDS-PAGE.<br>>90% as determined by SEC-MALS.                                                                                                            |
| <b>Storage</b>        | This product is stable after storage at:<br>-20°C to -70°C for 12 months in lyophilized state;<br>-70°C for 3 months under sterile conditions after reconstitution.           |
| <b>Reconstitution</b> | It is recommended that sterile water be added to the vial to prepare a stock solution of 0.2 ug/ul. Centrifuge the vial at 4°C before opening to recover the entire contents. |
| <b>Conjugation</b>    | Biotin                                                                                                                                                                        |

## GENE INFORMATION
