

# Recombinant Full Length Bovine Cd302 Antigen(Cd302) Protein, His-Tagged

**Cat. No.** RFL5232BF    **Lot. No.** (See product label)

## SPECIFICATION

|                         |                                                                                                                                                                                                                                |
|-------------------------|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>Product Overview</b> | Recombinant Full Length Bovine CD302 antigen(CD302) Protein (A8WH74) (23-232aa), fused to N-terminal His tag, was expressed in E. coli.                                                                                        |
| <b>Species</b>          | Bovine                                                                                                                                                                                                                         |
| <b>Source</b>           | E.coli                                                                                                                                                                                                                         |
| <b>ProteinLength</b>    | Full Length of Mature Protein (23-232)                                                                                                                                                                                         |
| <b>Form</b>             | Lyophilized powder                                                                                                                                                                                                             |
| <b>AA Sequence</b>      | DCPSSTWVQFQDSCYIFLQEAIKVESIEDVRNQCTNHGADMISIHNEEENAFILDTLK<br>KQWKDPADILLGMFFDTDDASFKWFDNSNMTFNKWSDQEDDEELVDTC AFLHTKT<br>GDWKKGNCEVSSVEGTLCKAAIPYEKKYLSNRLISALVIAS TVILTVLGAVVWFLYK<br>RSLDSGFTTVFSAAHQSPYNDDCVLVVAEENEYDIQFN |
| <b>Purity</b>           | Greater than 90% as determined by SDS-PAGE.                                                                                                                                                                                    |
| <b>Applications</b>     | SDS-PAGE                                                                                                                                                                                                                       |
| <b>Notes</b>            | Repeated freezing and thawing is not recommended. Store working aliquots at 4°C for up to one week.                                                                                                                            |
| <b>Storage</b>          | Store at -20°C/-80°C upon receipt, aliquoting is necessary for mutiple use. Avoid                                                                                                                                              |

repeated freeze-thaw cycles.

**Storage Buffer**

Tris/PBS-based buffer, 6% Trehalose, pH 8.0

**Reconstitution**

We recommend that this vial be briefly centrifuged prior to opening to bring the contents to the bottom. Please reconstitute protein in deionized sterile water to a concentration of 0.1-1.0 mg/mL. We recommend to add 5-50% of glycerol (final concentration) and aliquot for long-term storage at -20°C/-80°C. Our default final concentration of glycerol is 50%. Customers could use it as reference.

**GENE INFORMATION****Gene Name**

CD302

**Synonyms**

CD302; CD302 antigen; Type I transmembrane C-type lectin receptor DCL-1

**UniProt ID**
