

# Recombinant Full Length Laccaria Bicolor Nadh-Cytochrome B5 Reductase 1(Mcr1.1) Protein, His-Tagged

**Cat. No.** RFL23153LF    **Lot. No.** (See product label)

## SPECIFICATION

|                         |                                                                                                                                                                                                                                                                                                                                             |
|-------------------------|---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>Product Overview</b> | Recombinant Full Length Laccaria bicolor NADH-cytochrome b5 reductase 1(MCR1.1) Protein (B0CQN7) (1-308aa), fused to N-terminal His tag, was expressed in E. coli.                                                                                                                                                                          |
| <b>Species</b>          | Laccaria bicolor                                                                                                                                                                                                                                                                                                                            |
| <b>Source</b>           | E.coli                                                                                                                                                                                                                                                                                                                                      |
| <b>ProteinLength</b>    | Full Length (1-308)                                                                                                                                                                                                                                                                                                                         |
| <b>Form</b>             | Lyophilized powder                                                                                                                                                                                                                                                                                                                          |

| <b>Applications</b>     | SDS-PAGE                                                                                                                                                                                                                                                                                                                                    |
| <b>Notes</b>            | Repeated freezing and thawing is not recommended. Store working aliquots at 4°C                                                                                                                                                                                                                                                             |

 45-1 Ramsey Road, Shirley, NY 11967, USA

for up to one week.

**Storage**

Store at -20°C/-80°C upon receipt, aliquoting is necessary for mutiple use. Avoid repeated freeze-thaw cycles.

**Storage Buffer**

Tris/PBS-based buffer, 6% Trehalose, pH 8.0

**Reconstitution**

We recommend that this vial be briefly centrifuged prior to opening to bring the contents to the bottom. Please reconstitute protein in deionized sterile water to a concentration of 0.1-1.0 mg/mL. We recommend to add 5-50% of glycerol (final concentration) and aliquot for long-term storage at -20°C/-80°C. Our default final concentration of glycerol is 50%. Customers could use it as reference.

## GENE INFORMATION

**Gene Name**

MCR1.1

**Synonyms**

MCR1.1; LACBIDRAFT\_300832; NADH-cytochrome b5 reductase 1; Microsomal cytochrome b reductase

**UniProt ID**

[B0CQN7](#)
