

# Recombinant Full Length Halichoerus Grypus Atp Synthase Subunit A(Mt-Atp6) Protein, His-Tagged

**Cat. No.** RFL1757HF    **Lot. No.** (See product label)

## SPECIFICATION

|                         |                                                                                                                                                                                                                                                 |
|-------------------------|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>Product Overview</b> | Recombinant Full Length Halichoerus grypus ATP synthase subunit a(MT-ATP6) Protein (P38591) (1-226aa), fused to N-terminal His tag, was expressed in E. coli.                                                                                   |
| <b>Species</b>          | Halichoerus grypus (Gray seal)                                                                                                                                                                                                                  |
| <b>Source</b>           | E.coli                                                                                                                                                                                                                                          |
| <b>ProteinLength</b>    | Full Length (1-226)                                                                                                                                                                                                                             |
| <b>Form</b>             | Lyophilized powder                                                                                                                                                                                                                              |
| <b>AA Sequence</b>      | MNENLFASFTTPTMMGLPIVILIVLFPSILFPSPDRLINNRLTSIQQWLIQLTSKQMLSI<br>HNHKGQTWALMLISLILFIGSTNLLGLLPHSFTPTTQLSMNLGMAIPLWAGTVITGFRH<br>K TKASLAHFLPQGTPLPLIPMLVIIETISLFIQPMALAVRLTANITAGHLLIHLIGGATLA<br>LMDISTTTAFITFIVLILLTILEFAVALIQAYVFTLLVSLYLHDNT |
| <b>Purity</b>           | Greater than 90% as determined by SDS-PAGE.                                                                                                                                                                                                     |
| <b>Applications</b>     | SDS-PAGE                                                                                                                                                                                                                                        |
| <b>Notes</b>            | Repeated freezing and thawing is not recommended. Store working aliquots at 4°C for up to one week.                                                                                                                                             |
| <b>Storage</b>          | Store at -20°C/-80°C upon receipt, aliquoting is necessary for mutiple use. Avoid                                                                                                                                                               |

repeated freeze-thaw cycles.

**Storage Buffer**

Tris/PBS-based buffer, 6% Trehalose, pH 8.0

**Reconstitution**

We recommend that this vial be briefly centrifuged prior to opening to bring the contents to the bottom. Please reconstitute protein in deionized sterile water to a concentration of 0.1-1.0 mg/mL. We recommend to add 5-50% of glycerol (final concentration) and aliquot for long-term storage at -20°C/-80°C. Our default final concentration of glycerol is 50%. Customers could use it as reference.

**GENE INFORMATION****Gene Name**

MT-ATP6

**Synonyms**

MT-ATP6; ATP6; ATPASE6; MTATP6; ATP synthase subunit a; F-ATPase protein 6

**UniProt ID**

[P38591](#)
