

# Recombinant Full Length *Xenopus laevis* NADH-Ubiquinone Oxidoreductase Chain 4L(Mt-Nd4L) Protein, His-Tagged

**Cat. No.** RFL14345XF    **Lot. No.** (See product label)

## SPECIFICATION

|                         |                                                                                                                                                                                          |
|-------------------------|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>Product Overview</b> | Recombinant Full Length <i>Xenopus laevis</i> NADH-ubiquinone oxidoreductase chain 4L(mt-nd4l) Protein (P03904) (1-98aa), fused to N-terminal His tag, was expressed in <i>E. coli</i> . |
| <b>Species</b>          | <i>Xenopus laevis</i>                                                                                                                                                                    |
| <b>Source</b>           | <i>E. coli</i>                                                                                                                                                                           |
| <b>ProteinLength</b>    | Full Length (1-98)                                                                                                                                                                       |
| <b>Form</b>             | Lyophilized powder                                                                                                                                                                       |
| <b>AA Sequence</b>      | MTLIHFSFCSAFILGLTGLALNRSPILSILLCLEGMLLMSMDGIVLTPLHLTIYLSSMML<br>YIMLPFAAPEAATGLSLNSDHYTTHTGDKLFSLNLEEC                                                                                   |
| <b>Purity</b>           | Greater than 90% as determined by SDS-PAGE.                                                                                                                                              |
| <b>Applications</b>     | SDS-PAGE                                                                                                                                                                                 |
| <b>Notes</b>            | Repeated freezing and thawing is not recommended. Store working aliquots at 4°C for up to one week.                                                                                      |
| <b>Storage</b>          | Store at -20°C/-80°C upon receipt, aliquoting is necessary for mutiple use. Avoid repeated freeze-thaw cycles.                                                                           |

|                       |                                             |
|-----------------------|---------------------------------------------|
| <b>Storage Buffer</b> | Tris/PBS-based buffer, 6% Trehalose, pH 8.0 |
|-----------------------|---------------------------------------------|

**Reconstitution**

We recommend that this vial be briefly centrifuged prior to opening to bring the contents to the bottom. Please reconstitute protein in deionized sterile water to a concentration of 0.1-1.0 mg/mL. We recommend to add 5-50% of glycerol (final concentration) and aliquot for long-term storage at -20°C/-80°C. Our default final concentration of glycerol is 50%. Customers could use it as reference.

**GENE INFORMATION****Gene Name**

mt-nd4l

**Synonyms**

mt-nd4l; mtnd4l; nadh4l; nd4l; NADH-ubiquinone oxidoreductase chain 4L; NADH dehydrogenase subunit 4L

**UniProt ID**[P03904](#)
