

# Recombinant Full Length Macaca Fascicularis Natural Cytotoxicity Triggering Receptor 3(Ncr3) Protein, His-Tagged

**Cat. No.** RFL27154MF    **Lot. No.** (See product label)

## SPECIFICATION

|                         |                                                                                                                                                                                  |
|-------------------------|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>Product Overview</b> | Recombinant Full Length Macaca fascicularis Natural cytotoxicity triggering receptor 3(NCR3) Protein (P61483) (19-176aa), fused to N-terminal His tag, was expressed in E. coli. |
| <b>Species</b>          | Macaca fascicularis                                                                                                                                                              |
| <b>Source</b>           | E.coli                                                                                                                                                                           |
| <b>ProteinLength</b>    | Full Length of Mature Protein (19-176)                                                                                                                                           |
| <b>Form</b>             | Lyophilized powder                                                                                                                                                               |
| <b>AA Sequence</b>      | LWVSQPPEIRTLLEGSSAFLPCSFNASQGRLAIGSVTWFRDEVAPGKEVRNGTPEFR<br>GRLAPLSSSRFLRDHQAELHIWDVRGHDAGIYVCRVEVLGLGVGTGNGTRLVVEKE<br>YPQLGAGTVLLL RAGFYAVSFLSVAVGSTLYYQGKCHCHMGTHCHS         |
| <b>Purity</b>           | Greater than 90% as determined by SDS-PAGE.                                                                                                                                      |
| <b>Applications</b>     | SDS-PAGE                                                                                                                                                                         |
| <b>Notes</b>            | Repeated freezing and thawing is not recommended. Store working aliquots at 4°C for up to one week.                                                                              |
| <b>Storage</b>          | Store at -20°C/-80°C upon receipt, aliquoting is necessary for mutiple use. Avoid                                                                                                |

repeated freeze-thaw cycles.

**Storage Buffer**

Tris/PBS-based buffer, 6% Trehalose, pH 8.0

**Reconstitution**

We recommend that this vial be briefly centrifuged prior to opening to bring the contents to the bottom. Please reconstitute protein in deionized sterile water to a concentration of 0.1-1.0 mg/mL. We recommend to add 5-50% of glycerol (final concentration) and aliquot for long-term storage at -20°C/-80°C. Our default final concentration of glycerol is 50%. Customers could use it as reference.

**GENE INFORMATION****Gene Name**

NCR3

**Synonyms**

NCR3; Natural cytotoxicity triggering receptor 3; Natural killer cell p30-related protein; NK-p30; NKp30; CD antigen CD337

**UniProt ID**

[P61483](#)
