

## Recombinant Cynomolgus NKp46 protein, His-tagged

**Cat. No.** NKp46-1008C    **Lot. No.** (See product label)

### SPECIFICATION

|                         |                                                                                                                                                                                                                                                                                               |
|-------------------------|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>Product Overview</b> | Recombinant Cynomolgus NKp46 protein(Pro 22 - Arg 257)(NP_001271509.1), fused with His tag, was expressed in HEK293.                                                                                                                                                                          |
| <b>Species</b>          | Cynomolgus                                                                                                                                                                                                                                                                                    |
| <b>Source</b>           | HEK293                                                                                                                                                                                                                                                                                        |
| <b>ProteinLength</b>    | Pro 22 - Arg 257                                                                                                                                                                                                                                                                              |
| <b>Form</b>             | PBS, pH7.4                                                                                                                                                                                                                                                                                    |
| <b>Molecular Mass</b>   | 28.6 kDa                                                                                                                                                                                                                                                                                      |
| <b>Endotoxin</b>        | Less than 1.0 EU per µg by the LAL method.                                                                                                                                                                                                                                                    |
| <b>Purity</b>           | >90% as determined by SDS-PAGE.                                                                                                                                                                                                                                                               |
| <b>Storage</b>          | -20°C                                                                                                                                                                                                                                                                                         |
| <b>Reconstitution</b>   | It is recommended to reconstitute the lyophilized powder in sterile water to 100-200 ug/ml, and further dilute with other solvents. The dissolved protein can be stored at 4°C for 2-7 days and should be used up as soon as possible. If not in use for a short time, please store at -20°C. |
