

# Recombinant Full Length Human C11orf58 Protein, GST-tagged

**Cat. No.** C11orf58-1829HF    **Lot. No.** (See product label)

## SPECIFICATION

|                         |                                                                                                                                                                                                    |
|-------------------------|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>Product Overview</b> | Human C11orf58 full-length ORF ( NP_055082.1, 1 a.a. - 183 a.a.) recombinant protein with GST-tag at N-terminal.                                                                                   |
| <b>Species</b>          | Human                                                                                                                                                                                              |
| <b>Source</b>           | In Vitro Cell Free System                                                                                                                                                                          |
| <b>ProteinLength</b>    | 183 amino acids                                                                                                                                                                                    |
| <b>Description</b>      | C11orf58 (Chromosome 11 Open Reading Frame 58) is a Protein Coding gene.                                                                                                                           |
| <b>Form</b>             | 50 mM Tris-HCl, 10 mM reduced Glutathione, pH=8.0 in the elution buffer.                                                                                                                           |
| <b>Molecular Mass</b>   | 46.7 kDa                                                                                                                                                                                           |
| <b>AA Sequence</b>      | MSAARESHPHGVKRSASPDDDLGSSNWEAADLGNEERKQKFLRLMGAGKKEHTG<br>RLVIGDHKSTSHFRTGEEDKKINEELESQYQQSMDSKLSGRYRRHCGLGFSEVEDH<br>DGEQDVAGDDDDDDDDSPDPESPDDSESDSESEKEESAELQAAEHPDEVEDPKN<br>KKDAKSNYKMMFVKSSGS |
| <b>Storage</b>          | Store at -80 centigrade. Aliquot to avoid repeated freezing and thawing.                                                                                                                           |
| <b>Storage Buffer</b>   | 50 mM Tris-HCl, 10 mM reduced Glutathione, pH=8.0 in the elution buffer.                                                                                                                           |
