

Recombinant Full Length Human CHAC1 Protein, GST-tagged

Cat. No. CHAC1-3306HF **Lot. No.** (See product label)

SPECIFICATION

Product Overview	Human CHAC1 full-length ORF (NP_077016.1, 1 a.a. - 222 a.a.) recombinant protein with GST tag at N-terminal.
Species	Human
Source	In Vitro Cell Free System
ProteinLength	222 amino acids
Description	This gene encodes a member of the gamma-glutamylcyclotransferase family of proteins. The encoded protein has been shown to promote neuronal differentiation by deglycation of the Notch receptor, which prevents receptor maturation and inhibits Notch signaling. This protein may also play a role in the unfolded protein response, and in regulation of glutathione levels and oxidative balance in the cell. Elevated expression of this gene may indicate increased risk of cancer recurrence among breast and ovarian cancer patients. [provided by RefSeq, Sep 2016]
