

# Recombinant Full Length Human FAM226B Protein, GST-tagged

**Cat. No.** FAM226B-3507HF    **Lot. No.** (See product label)

## SPECIFICATION

|                         |                                                                                                                                              |
|-------------------------|----------------------------------------------------------------------------------------------------------------------------------------------|
| <b>Product Overview</b> | Human hCG_1731871 full-length ORF ( ABM85753.1, 1 a.a. - 99 a.a.) recombinant protein with GST-tag at N-terminal.                            |
| <b>Species</b>          | Human                                                                                                                                        |
| <b>Source</b>           | In Vitro Cell Free System                                                                                                                    |
| <b>ProteinLength</b>    | 99 amino acids                                                                                                                               |
| <b>Description</b>      | FAM226B (Family With Sequence Similarity 226 Member B (Non-Protein Coding)) is an RNA Gene, and is affiliated with the non-coding RNA class. |
| <b>Molecular Mass</b>   | 37.29 kDa                                                                                                                                    |
| <b>AA Sequence</b>      | MLKYVIKRYRSFLPEIFKKASDLPELVFGFYLKELDPAEHSYVLIRKIDPALVWGLTGD<br>QGTPKTRLLMITLDSIFMQASCVP EEVVWEVLRVLEAHFV                                     |
| <b>Applications</b>     | Enzyme-linked Immunoabsorbent Assay<br>Western Blot (Recombinant protein)<br>Antibody Production<br>Protein Array                            |
| <b>Notes</b>            | Best use within three months from the date of receipt of this protein.                                                                       |

|                |                                                                         |
|----------------|-------------------------------------------------------------------------|
| <b>Storage</b> | Store at -8 centigrade. Aliquot to avoid repeated freezing and thawing. |
|----------------|-------------------------------------------------------------------------|

|                       |                                                                          |
|-----------------------|--------------------------------------------------------------------------|
| <b>Storage Buffer</b> | 50 mM Tris-HCl, 10 mM reduced Glutathione, pH=8.0 in the elution buffer. |
|-----------------------|--------------------------------------------------------------------------|

## GENE INFORMATION

|                  |                                                                                                    |
|------------------|----------------------------------------------------------------------------------------------------|
| <b>Gene Name</b> | FAM226B family with sequence similarity 226 member B (non-protein coding) [ Homo sapiens (human) ] |
|------------------|----------------------------------------------------------------------------------------------------|

|                        |         |
|------------------------|---------|
| <b>Official Symbol</b> | FAM226B |
|------------------------|---------|

|                 |                                                                                                                                                                                                     |
|-----------------|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>Synonyms</b> | FAM226B; family with sequence similarity 226 member B (non-protein coding); CXorf50B; LINC00246B; NCRNA00246B; hCG1731871; long intergenic non-protein coding RNA 246B; non-protein coding RNA 246B |
|-----------------|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|

|                |        |
|----------------|--------|
| <b>Gene ID</b> | 653687 |
