

Recombinant Full Length Human CCNQ Protein, GST-tagged

Cat. No. CCNQ-4620HF **Lot. No.** (See product label)

SPECIFICATION

Product Overview	Human FAM58A full-length ORF (NP_689487.1, 1 a.a. - 214 a.a.) recombinant protein with GST-tag at N-terminal.
Species	Human
Source	In Vitro Cell Free System
ProteinLength	214 amino acids
Description	Mutations in this gene have been shown to cause an X-linked dominant STAR syndrome that typically manifests syndactyly, telecanthus and anogenital and renal malformations. The protein encoded by this gene contains a cyclin-box-fold domain which suggests it may have a role in controlling nuclear cell division cycles. Alternative splicing results in multiple transcript variants encoding distinct isoforms. [provided by RefSeq, Oct 2008]
