| <b>Product Overview</b> | Purified Native Rabbit Serum C-Reactive Protein.                                                                                                                                                                                                                                                                                                                       |
| <b>Species</b>          | Rabbit                                                                                                                                                                                                                                                                                                                                                                 |
| <b>Source</b>           | Rabbit Serum                                                                                                                                                                                                                                                                                                                                                           |
| <b>Description</b>      | C-Reactive Protein (CRP) is a pentameric serum protein belonging to the pentraxin family that is comprised of five identical ~ 23kDa subunits. It is a positive acute phase reactant, the levels of which increase modestly in rdogs (1.5-2 fold) in response to inflammation, tissue injury or disease. CRP is purified using multiple affinity chromatography steps. |
| <b>Form</b>             | Liquid                                                                                                                                                                                                                                                                                                                                                                 |
| <b>Purity</b>           | >90% by SDS-PAGE                                                                                                                                                                                                                                                                                                                                                       |
| <b>Storage</b>          | Store at -20°C.                                                                                                                                                                                                                                                                                                                                                        |
| <b>Concentration</b>    | >0.5 mg/mL                                                                                                                                                                                                                                                                                                                                                             |

### GENE INFORMATION

|                        |                                                                            |
