

Native Porcine Fibrinogen Protein

Cat. No. FGB-928P **Lot. No.** (See product label)

SPECIFICATION

Product Overview	Native Porcine Fibrinogen Protein was extracted from porcine plasma
Species	Porcine
Source	Porcine plasma
Description	Plasminogen depleted byÂ lysine affinity chromatography. Thaw in a 37C water bath without agitation until completely liquid, then gently mix before use. Keep fibrinogen at 25-37C, aliquot and flash freeze unused portion.
Form	Liquid
Purity	Chromatographically purified >95% as determined by SDS-PAGE.
Applications	This product can be used as a control in applications like ELISA and Western Blot. It can be used for a wide range of in vitro applications, including clotting assays, fibrinolysis, hemostasis, IHC of infused tissue, protein-protein interactions, thromboelastography, thrombolysis, and more. At Innovative Research, we provide reliable, consistent products that deliver reliable, consistent results.
Storage	-70°C
Storage Buffer	0.02M Sodium Citrate-HCl; pH 7.4 with a concentration of 10 mg/ml
