

Native Dog Haptoglobin

Cat. No. HP-190C **Lot. No.** (See product label)

SPECIFICATION

Product Overview	Purified Native Canine (Dog) Serum Haptoglobin.
Species	Dog
Source	Canine Serum
Description	Haptoglobin (frequently abbreviated as Hp) is a protein in the blood plasma that binds free hemoglobin released from erythrocytes with high affinity and thereby inhibits its oxidative activity. The haptoglobin-hemoglobin complex will then be removed by the reticuloendothelial system (mostly the spleen). Haptoglobin is a serum protein that consists of two alpha and two beta chains connected by disulfide bridges. It acts as a hemoglobin scavenger and has been associated with protease inhibitory activity. CANINE HAPTOGLOBIN is a positive acute phase reactant, the levels of which increase significantly in DOG(S) in response to inflammation, tissue injury or disease.
Form	Liquid, 10 mM TrisCl pH 7.4, 150 mM NaCl
Purity	>95% by SDS-PAGE
Storage	Store at 2-8 °C.
Concentration	>0.5 mg/mL
